# OUR SOLUTION

## What is missing in the Web3?

Gemini Dao is born in order to solve a simple but big problem that crypto users are facing. Infact in your wallet you can hold thousand of dollars of crypto/tokens, but you can only make some trades or do few more things. Gemini Dao want to solve this problem by creating a new platform when users have access to multiple feature.

To make it simple, you can think about Gemini as the Web3 version of Ebay. Here is what makes Gemini interesting for the crypto ecosystem:

-100% Decentralized

-Usecase : Users will be able to advertise whatever they want too,in a super fast way and they have the freedom to promote, buy or sell with a fast transaction system and insta-payments using crypto as a main currency.

-Holders : holders and investor will be heavily rewarded. Every ads or promotion done on our website will be redistributed to them, that's to boost our entire ecosystem and grow togheter as a proper Dao.

-Our Dao : many big project nowdays fails due to maintaing a super centralized organization, that's what we want to avoid and how we are gonna do that is well explained in the governance section. After all the roadmap steps will be completed we will have control of the website platform, in order to make fast changes, updates and improvements!

# HOW IT WORKS?

So here is the core of Gemini Dao, when the implementation of this feature will be ready our investors/users will be able just by connecting to our website to gain the access to our dashboard. First, in order to guarantee the safety of our users we suggest always to be careful and always control to be connected to our official website (that is 100% secure) and not to fall for any fake links.

## Our website functioning

There are many functions that we want to introduce in the ecosystem. The first one that will be available at launch will be the possibility for every team/dev to promote their projects (if they'll have the right security requirements). Every paid promotion done will be given back to our community in order to reward holders with an amount X of tokens depending on the price of the promotion done. For example an user pay 100\$ dollars to promote a project and to be in the front page, this 100 dollars will be diveded among all holders. That's just the first step,every future update of the platform will introduce more functions, following our roadmap.

By using our website,user will be able to access many functions as:

- Promote a token.
- Possibility to buy and sell products with crypto (like ebay,amazon).
- Advertise a product, project, company, telegram/instagram channel.
- Secure Payments trough crypto.
- Section to report fraud or scammers posting fake ads.

# .LEGAL

**LEGAL DISCLAIMER:** The information provided in this document and the corresponding website does not constitute investment advice, financial advice, trading advice, or any other sort of advice and you should not treat any of the website's content as such. Gemini Dao does not recommend that any cryptocurrency should be bought, sold, or held by you. Do conduct your own due diligence and consult your financial advisor before making any investment decisions. By purchasing Gemini, you agree that you are not purchasing a security or investment and you agree to hold Gemini harmless and not liable for any losses or taxes you may incur. You also agree that Gemini is presenting the tokens "as is" and is not required to provide any support or services. You should have no expectation of any form from Gemini and its team. Always make sure that you are in compliance with your local laws and regulations before you make any purchase.

Please be aware of the risks involved with any trading done in any financial market. Do not trade with money that you cannot afford to lose. When in doubt, you should consult a qualified financial advisor before making any investment decisions.

# GOVERNANCE

The main aspect of governance, is much more open and similar to existing governance DAOs. Any holder is a member of it. This DAO has full power over the project, and works in the same way as the Uniswap DAO: anyone holding more than 0.5% of the supply can submit a proposal, and all holders can vote, in proportion to their share of Gemini, "For" or "Against". Once the vote is completed, the proposal is accepted or not depending on the results. Proposals can be on anything from the structure of the Protocol's DAO, to the parameters described as flexible in Part III, to even strategic fund management decisions. The most important thing to understand about Gemini's governance is the split between the two DAOs: one is Website-specific and only concerns the dapp implementation, and therefore must be hermetic and hierarchical to ensure quality, and the other is open to all holders and allows for general decisions about the project.

# GEMINI DAO

We aim to cement the Gemini Dao ecosystem as the first and most revolutionary project to connect the utility of a blockchain token with a functional use for every crypto holder.

The difference between our project and many others is that it is already partially functional and it doesn't need tons of promises. It's hard work that will pay off.

Gemini Dao is **not** a meme-coin; our goals and the utility of our tokens do not make Gemini Dao categorizable within the meme-coin set. We believe our target category is community driven-token, and the development of our platform will improve all Web3 system, by solving a big problem that now exist, and nobody tried to solve.

Built on the foundation of a community of visionaries and multipurpose idea creators, we plan to see Gemini Dao at the forefront of the evolution of decentralized finance (DeFi), being among the first platforms to be identified as a modern Crypto Ebay.

# ROADMAP

# WHAT IS GEMINI TOKEN?

## Name (GEMINI):

\$Gemini token is not only the governance asset of the project but also plays an important role in the ecosystem. The intention of the design is to balance user incentives and support the medium and long-term development of the project.

\$Gemini can be used as an important asset to access exclusive content, gain a discount on our services, and the possibility to a full usage of our website dapp.

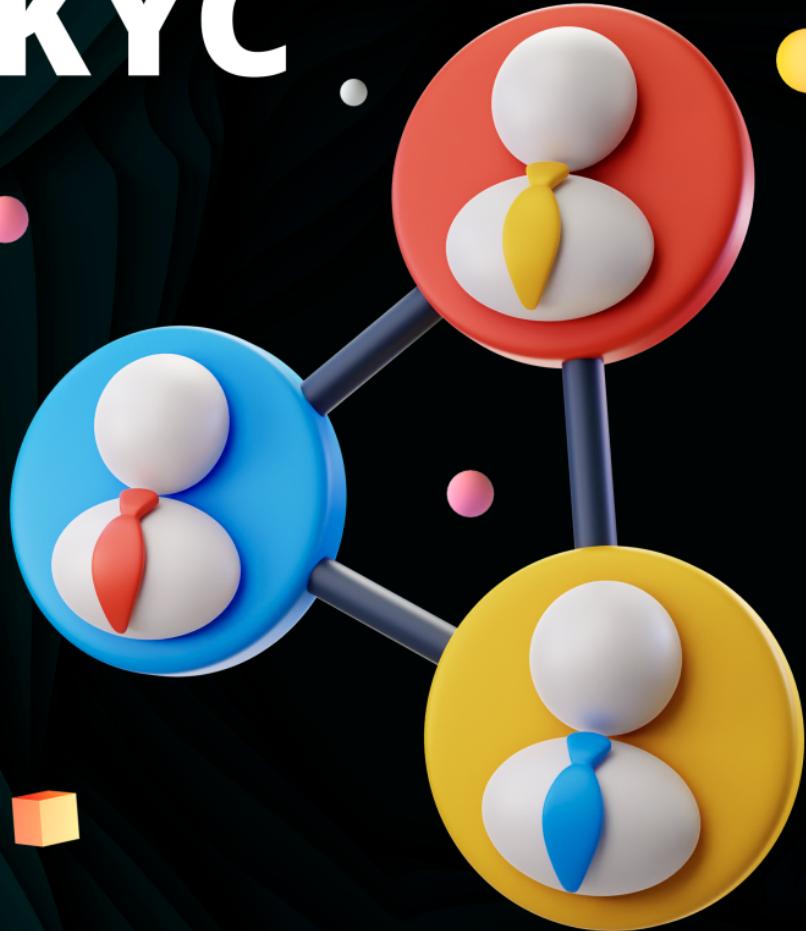

# OUR KYC

## For investors safety

Gemini Dao Core-Team will be DOXXED and will get KYC by one of the most trusted KYC platforms in the Crypto space!

The team behind Gemini Dao is a team of crypto / DeFi tool creators, working in crypto for over 2 years. They are now 100% dedicated to the creation of this project, a new era will come.

# HOW TO BUY

To start exploring the Gemini ecosystem you will need the following three things:

- A Web3 wallet installed (MetaMask or Trustwallet recommended)
- \$BNB to pay the Gas Fees on the Binance Smart Chain Network
- \$GEMINI, which you can purchase in Pancake Swap.

If you haven't already installed your Web3 Wallet, then this document will help you: <https://docs.binance.org/smart-chain/wallet/metamask.html>

After you have configured your wallet, you can obtain your \$GEMINI tokens on Pancakeswap:

Congratulations! You're now an official holder of \$GEMINI
